OIT-9601-86

16 JAN 1986

MEMORANDUM FOR: Deputy Director of Security for Policy  
and Management

FROM:

Deputy Director of OIT - Operations

SUBJECT:

Requirement for Shielded Enclosure

REFERENCE:

OS 5 2291 dated 20 December 1985

1. We have been working with members of your staff and the Real Estate and Construction Division, Office of Logistics, and have determined that a shielded enclosure will not be required for the communications equipment rooms (CERs) in [redacted] [redacted] This is based on the fact that all equipment that processes classified information installed in these buildings either meets the TEMPEST specifications of NACSIM 5100A or will be installed in TEMPEST approved RFI racks. [redacted]

2. Should any additional classified information processing systems be installed in these buildings at a future date, please contact this office and we will gladly assist you in determining shielding requirements. [redacted]
